## New Hampshire, Oregon, Illinois join ban on TWD

Governors of three states recently signed into law bills prohibiting text messaging while driving.

New Hampshire became the 15th state to ban TWD when Gov. John Lynch (D) signed into law [House Bill 34](#). The law prohibits TWD and using two hands to operate an electronic or telecommunications device while driving. The law will not apply in cases of emergency or for global positioning systems and devices permanently affixed to a vehicle. Violation of the law will result in a \$100 fine.

Oregon Gov. Ted Kulongoski (D) on July 28 signed into law [House Bill 2377](#), which prohibits all drivers from TWD. The law states police officers can enforce the provision only as a secondary action when a driver has been detained for a suspected traffic violation or other offense. The law will not apply in 11 special cases, including emergency use. Violators are subject to a fine of \$90 or less.

Illinois Gov. Pat Quinn (D) signed into law on Aug. 6 [House Bill 71](#), which bans TWD for all motorists. The law will allow police to stop and ticket drivers for sending text messages, downloading ring tones or surfing the Internet on their mobile phones. All three laws go into effect on Jan. 1, 2010.

## Hand Hygiene is the #1 way to prevent the spread of infections

### WHY ?

You can take action by practicing hand hygiene regularly and by asking those around you to practice it as well.

### WHEN ?

You and your loved ones should clean your hands very often, especially after touching objects or surfaces in the hospital room, before eating, and after using the restroom. Your healthcare provider should practice hand hygiene every time they enter your room.

### HOW ?

It only takes 15 seconds of using either soap and water or an alcohol-based hand rub to kill the germs that cause infections.

### WHICH ?

Use soap and water when your hands look dirty; otherwise, you can use an alcohol-based hand rub.

### WHO ?

You, your loved ones, and your healthcare providers should practice hand hygiene.

#### hand hygiene

- Washing hands with soap and water.
- Cleansing hands using an alcohol-based hand rub.
- Preventing the spread of germs and infections.
